Building Healthy Cape Cod Families,
One Game At A Time!

Reboot GameLab

What do we know?

- Cape Cod kids grow up with significant economic, geographic and opioid challenges
- Nearly 40% of all kids spend at least three hours per day on a screen
- Those kids are more likely to have increased psychological difficulties, including hyperactivity, emotional and conduct problems, as well as difficulties with peers.

How does it work?

- Deliver programs that help kids learn critical thinking, empathy, social skills, teamwork and more, all in person and without screens.
- An after-school program that uses tabletop games
- A stand-alone location, like a “Game Café” - similar to those in Boston, NYC and Philadelphia - offering after-school, evening, weekend and summer programs using tabletop games

What can we do?

- Collaborate and build healthy Cape Cod families by delivering an innovative, screen-free way to give kids (and families) the tools they need to succeed.
- We will brainstorm and create screen-free ways to build healthy Cape Cod families
